If the change (gain/loss) in the number of full-time permanent employees as of the date of the report plus the number of full-time permanent employees anticipated to be hired after date of the report does not equal the number of full-time permanent employees stated in the Agreement that would be created at the site as a result of the assistance, then please explain why not:

Current market conditions have caused an indefinite delay in hiring additional employees for the project. At this time, it is uncertain if the required number of jobs will be created.
